

Maria Giraldo

Software
Developer

PORTAFOLIO

Sistema de Telemetría

Monitoreo y control de regulador de alto voltaje

Sistema Web de administración y control

Lenguaje: C++ / PHP

Base de datos: SQLite

Framework: Qt Creator

Plataforma: ARM, sistema embebido bajo compilación cruzada.

Migración de Bases de datos

Migración de bases de datos,
Creación de scripts bajo
SQL dinámico y Transact Sql.
Montaje de servidor de repites
en Reporting Services.

USE [master]

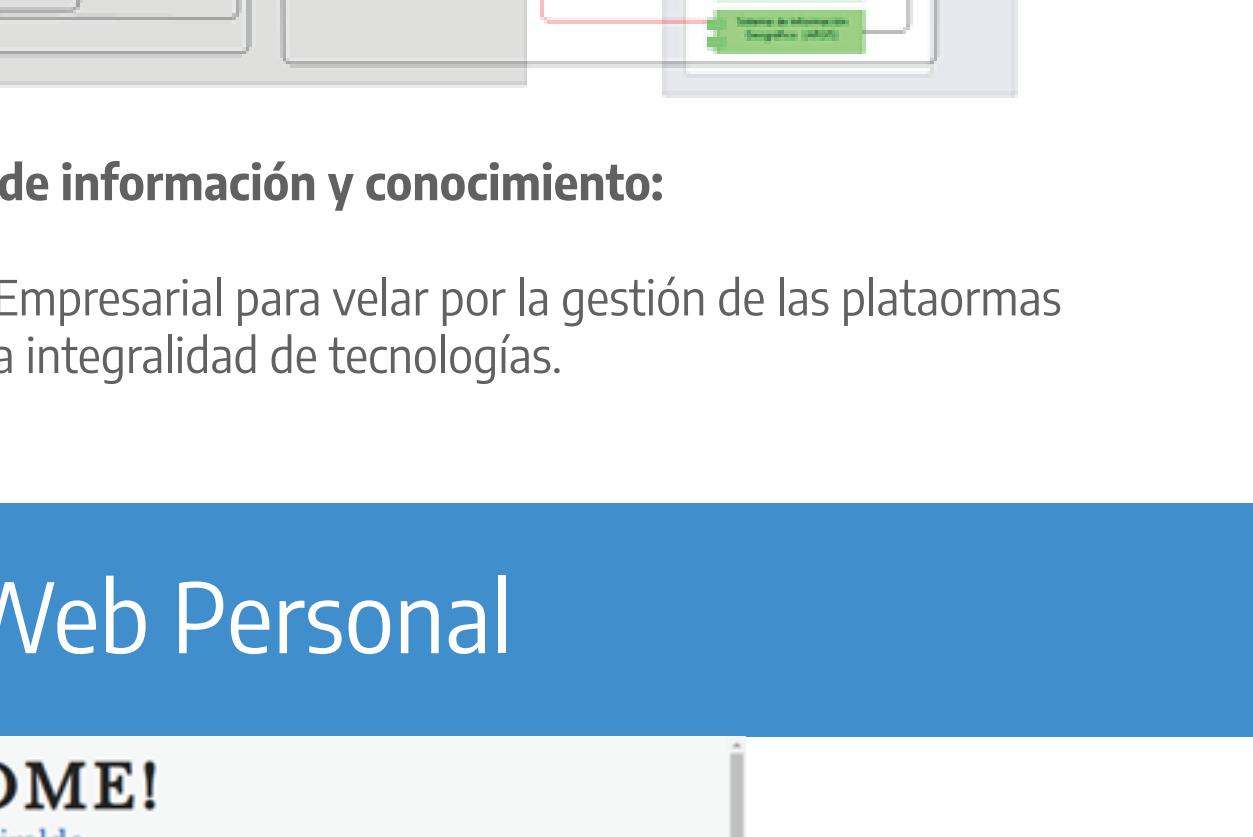

GO

```
IF EXISTS (SELECT srv.name FROM sys.servers srv WHERE srv.server_id != 0 AND srv.name = N'N\VEP')
EXEC master.dbo.sp_dropserver @server=N'N\VEP', @droplogins='droplogins'
GO
EXEC sp_addlinkedserver 'VFP', 'MSDASQL',NULL,NULL,'DRIVER={Microsoft Visual FoxPro Driver};UID=;
SourceType=DBF;SourceDB=DBF;Exclusive=No;Collate=Machine;NULL=NO;DELETED=YES;
BACKGROUNDFETCH=NO;', NULL
```

Aplicación para Android

Abecedario en Inglés / Personal

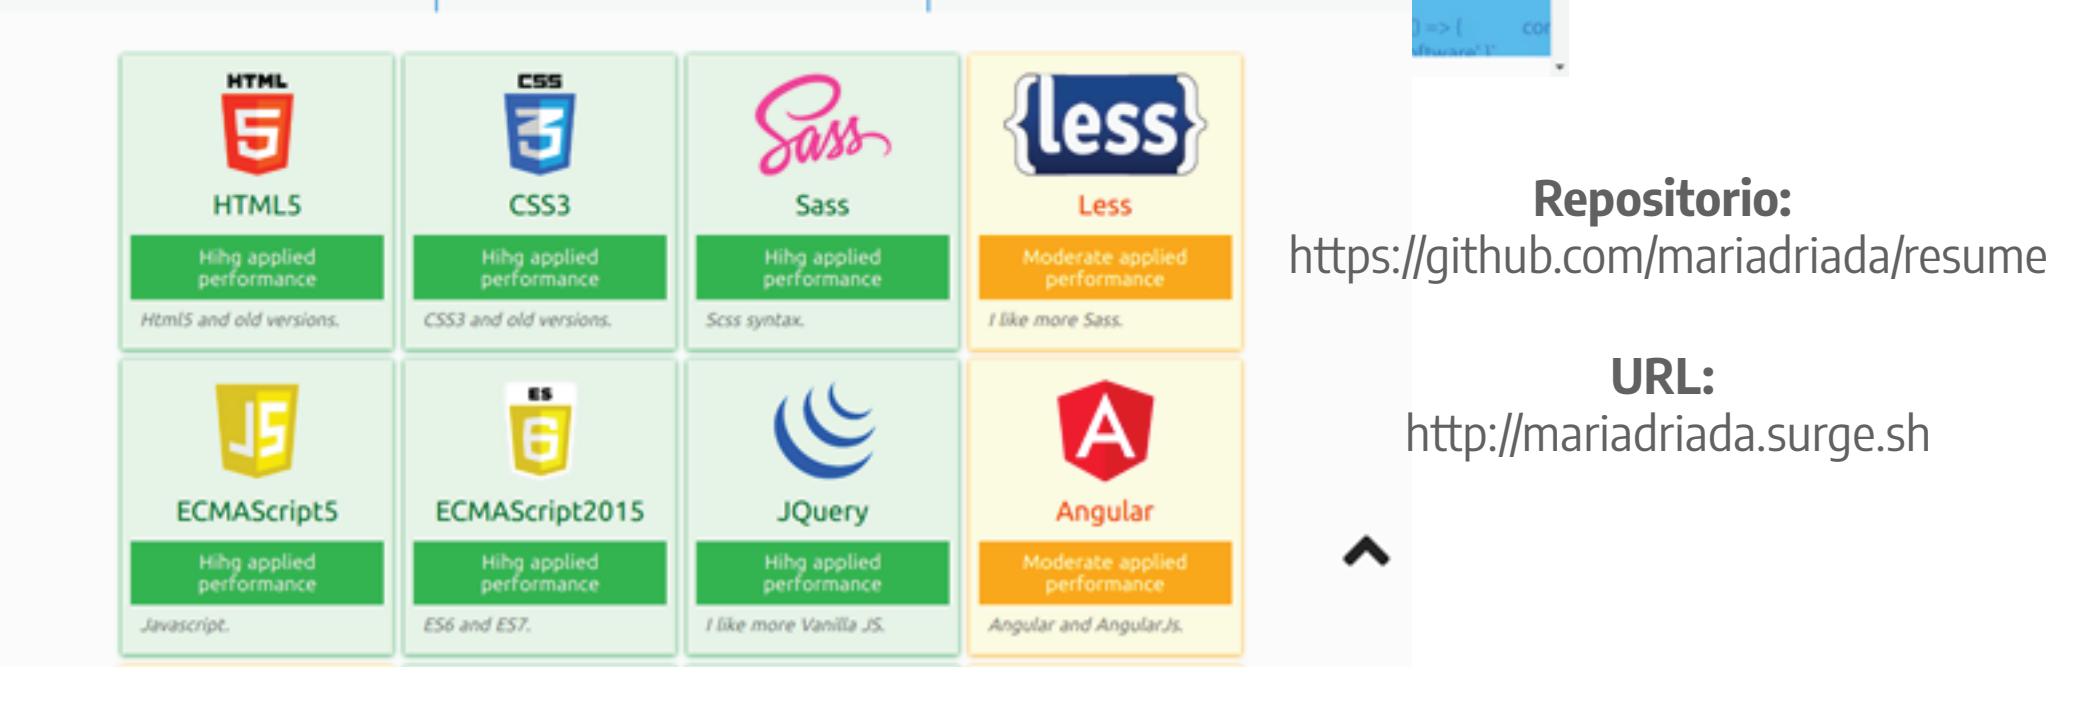

Desarrollo Web para enseñar pronunciación de vocabulario en Inglés.

Framework :D Vanilla Js

Repository: https://github.com/mariadriada/js_exercises

URL: <http://soundvocabulary.surge.sh>

Gestor de tareas Web / Personal

Lenguaje: PHP

Base de datos: MySQL

Framework: Zend Framework
Vue.js, Javascript Framework

Plataforma:

API Rest, desarrollada en IDE Netbeans para el backend
Frontend bajo Vue.js en VS Code Editor

Repository: <https://github.com/mariadriada/task-project>

Sistema de gestión por procesos

Sistema de Gestión Integral

Gestión de información y conocimiento:

Realización de Arquitectura Empresarial para velar por la gestión de las plataformas
y la integralidad de tecnologías.

Web Personal

WELCOME!

I'm Maria Giraldo

ABOUT SKILLS EXPERIENCE CODE CONTACT

I love to analyze and software coding!
